

Introducing SmartHabits AI

SmartHabits AI

An AI-powered platform that helps individuals and families build positive habits, track progress, and achieve long-term goals through intelligent recommendations, gamification, and family engagement.

Business Value

- Improve personal productivity and self-discipline.
- Help parents monitor and motivate their children.
- Encourage consistency through rewards and achievements.
- Deliver personalized AI-driven insights and recommendations.

Challenges We Address

For Individuals

- Difficulty maintaining healthy habits.
- Lack of motivation and consistency.
- No personalized guidance.

For Families

- Difficulty monitoring children's habits.
- Limited engagement between parents and children.
- Lack of structured performance tracking.

Individual Flow
